BULLETIN OF THE MONTH

Growing Tomatoes in the Home Garden
Home and Garden Bulletin No. 180

Tomatoes are one of the most popular vegetables grown in home gardens. This bulletin tells how to choose tomato varieties; suggests best time and location for planting seeds or seedlings; and gives direction for seedlings, transplanting, care, and harvesting. It also tells how to control insects and diseases and gives precautions on the use of pesticides.

FARMERS' BULLETINS

Using phenoxy herbicides effectively.
(F 2183) 24 p. 20¢.

This bulletin describes how plants react to the herbicides and explains what is meant by salts and esters and "acid equivalent." It tells how to apply the herbicides, how to test the output of the sprayer, and how to clean spray equipment.

Wild ducks on farmland in the South.
(F 2218) 14 p. 10¢.

This bulletin explains management practices. It evaluates several duck-feeding plants and gives useful information to farmers interested in attracting wild ducks to their farms by growing good duck food.

Water supply sources for the farmstead and rural home. (F 2237) 18 p. 15¢.

This new bulletin discusses quality and quantity of water requirements and ground and surface water sources for the farmstead and rural home.

culture and the contribution of farming to our economy.

Russian-olive for wildlife and other conservation uses. (L 517) 8 p. 10¢.

This leaflet provides instruction on the planting and care of Russian-olive and describes its uses for wildlife, living fences, farmstead and field windbreaks, and other conservation uses.

HOME AND GARDEN BULLETINS

Cabbage insects . . . how to control them in the home garden. (G 44) Folder. 10¢.

This publication discusses kinds of cabbage insects most commonly found. A chart showing kinds of insecticides, amount to use, and method of application is included.

Lawn weed control with herbicides. (G 123) 24 p. 15¢.

This bulletin explains herbicide treatment of weed grasses (crabgrass and Bermudagrass) and broadleaf weeds, the two classes of lawn weeds. It also contains illustrations and brief descriptions of 14 common lawn weeds.

Growing gardenias. (G 152) 8 p. 10¢.

This bulletin discusses the growing of gardenias outdoors, in greenhouses, and in the home. It also describes the diseases and pests that attack gardenia plants and methods of controlling insect pests.

Beekeeping for beginners. (G 158) 12 p. 15¢.

This bulletin, prepared for the beginner, provides basic information on nearly every aspect of beekeeping.

Growing tomatoes in the home garden. (G 180) 12 p. 10¢.

See Bulletin of the Month.

Mulches for your garden. (G 185) Folder. 10¢.

This new bulletin on garden mulches provides a complete source of information for flower and vegetable gardeners. Composting materials, bin construction, and chemical rates to use in making the compost are carefully detailed. Illustrated uses and methods of application for different mulches make this bulletin an excellent source for the gardener.

Equine infectious anemia. (EIA).
Sound, color, 16-mm, 16¼ minutes.

This is a disease that affects horses,
mules and burros. EIA, also known as
Swamp Fever, is found in all areas of
the United States. Highly infectious,
EIA is spread by mosquitoes, biting
flies, and by use of contaminated equip-
ment such as tack and hypodermic
needles. The film clearly outlines pre-
cautionary measures and appeals to all
horse owners and trainers to use ut-
most care with their animals. Produced
in cooperation with Texas A&M Uni-
versity. TV cleared.

The eternal forest. Sound, color, 16-
mm, 20½ minutes.

Deals with the popular subject of
man and his environment—specifically
forests and woodlands. The ravage of
North America's primeval forests, and
the gross neglect of our bountiful heri-
tage in the years of our nation's dy-
namic growth and expansion, is effec-
tively illustrated. With growing aware-
ness of the extent of depletion, the
film describes the effects to restore
nature's balance which began at the
turn of the Century. Today's sensible
balance between use of our forest's
resources, and their protection for fu-
ture generations, is highlighted at the
conclusion of the picture. Narrated by
Gregory Peck. TV cleared.
